Capital Region Community Health Needs Assessment

The Capital Region Community Health Needs Assessment (CHNA) is the most comprehensive analysis of public health in the Capital Region. The 2019 CHNA, our sixth, is a foundational resource supporting community health improvement planning in the counties of Albany, Schenectady, Rensselaer, Saratoga, Columbia and Greene.

The 2019 CHNA examines hospitalization and emergency department data, prevention quality indicators, demographic data and health behaviors. The structure of this report is based upon the 2019-2024 Prevention Agenda of New York State.

Health Disparity Reports

HCDI has 11 Disparity Reports published on hcdiny.org

Our Equity Reports include state, region, county and zip code analysis of selected health topics in the Capital Region. Sub-county analysis is also provided in easy to follow maps.
